TRAFILATO A MACCHINA / MACHINERY DRAW ARROTATO DA CRUDO

Cotto estruso con superficie rustica, conosciuto e utilizzato da decenni per la sua particolare finitura arrotata da crudo. La caratteristica superficie è ottenuta attraverso il trattamento del materiale crudo con spazzole d'acciaio.

Extruded terracotta with rustic surface, known and used for decades owing to its particular brushed finish. This category is constituted by a wide range of products which have contributed to spreading the image of Tuscan tradition throughout the world. Its characteristic roughness is obtained by working the surface of the material with steel brushes prior to firing.

TRAFILATO A MACCHINA / MACHINERY DRAWN LEVIGATO DOPO LA COTTURA

Cotto estruso con superficie liscia ottenuta dopo la cottura con il tradizionale metodo della levigatura. Nella storia delle pavimentazioni in cotto il "levigato", con la sua riconoscibile finitura, ricorda l'immagine dei palazzi signorili della Firenze rinascimentale. Destinazione preferenziale per interni.

LITOS (NATURALE)**

Terra estrusa e semplicemente cotta senza interventi o trattamenti superficiali. Finitura striata ottenuta attraverso la naturale colorazione dei sali portati in superficie prima della cottura nella delicata fase della essiccazione. Il materiale mantiene una tonalità chiara, risultato di una lavorazione che dona al prodotto un'immagine essenziale e totalmente pura.

Extruded and simply fired without surface interventions or treatments. Light and shaded finish obtained through the natural coloring of the salts brought to the surface before firing during the delicate drying phase.

Finitura Finish

TRAFILATO A MACCHINA / MACHINERY DRAWN FORNACE SANNINI

Fornace Sannini rinnova la tradizione del cotto unendo il fascino tattile del prodotto fatto a mano, con le caratteristiche di resistenza ed assorbimento dei migliori prodotti industriali. Realizzato con avanzate tecnologie di estrusione, ogni singolo elemento mantiene, come nelle lavorazioni artigianali, una propria inconfondibile identità. Adatto sia per ambienti rustici che classici, Fornace Sannini è il rivestimento ideale per il restauro o per nuove architetture di elevate qualità.

Fornace Sannini renews the tradition of cotto combining the tactile pleasure of a handmade product with the strength and absorption properties of the best industrial products. Manufactured employing state-of-the-art extrusion technology, each single piece has, similar to handmade tiles, its own distinct identity. Suitable for both rustic and classic settings, Fornace Sannini is the ideal material for restoration and refurbishment or for new high quality architectural projects.

TAGLIO FILO**

Terra estrusa e contestualmente tagliata lungo la sua superficie da un filo metallico; il risultato è una superficie leggermente più ruvida con una stonalizzazione molto accentuata.

Extruded terracotta with a specific rustic surface that is achieved by using a metal wire; as a consequence, the surface is more rough with a very beautiful and natural shading effect due to the not homogeneous oxidation of the clay during drying.
